Moved by Councillor P. Mick

Seconded by Councillor N. DelBianco

Whereas the forest products industry is the second largest contributor to Ontario's balance of trade recently directly employing 85,000 and many thousands more across the province in supply and service and contributes \$2.3 billion in taxes to all levels of government; and

Whereas any solution to this crisis requires the input and involvement of all stakeholders; and

Whereas Ontario government all party committees have served as a vehicle to solicit input and involve the public in finding solutions;
